PrePlanView™

"Critical Data at your fingertips"

**Visual Information
for
Emergency Response**

Viewpoint Command Systems

www.preplanview.com

Reduce Negative Surprises and Improve Responder Survival.

Emergency Response

There are Four Phases of Managing any Emergency:

**Planning
Recovery** **Response
Mitigation**

Viewpoint Command Systems provides the Planning information in an **Emergency Response**. Critical Data is provided **Both Visually AND Instantly**

PrePlanView™

- ✓ share with all responding agencies
- ✓ Specifically for **Police, Fire, EMS, Tactical Team, State and Federal**

PrePlanView™ places Critical Data at your fingertips to protect first responders, and can provide data to other agencies

- ✓ **Mutual Aid**
- ✓ **Auto Aid, Region or County**
- ✓ **Emergency Planning**

Automate your PrePlan

PrePlanView™ replaces the site plan binder with a solution that immediately deploys critical information in a 3D format. *PrePlanView™* can be viewed en-route,, and on-scene for incident review. Site plans can be accessed by address, name, or automatically via an interface with your CAD system.

How do you Address your Risk Exposures?

- First Responder Safety
- Citizen Safety
- Regulation Compliance
- Reduce Property Damage
- Manage Potential Litigation

The Benefits to replacing paper with an automated plan.

- **Easy Access.** It's not in a box or a binder.
- **Always Current.** Easily updated.
- **Shared quickly.** Easily shared internally or with mutual aid partners.

What our Fire Chiefs are saying;

"PrePlanView™ is very usable in the field. We finally have a preplan system that our incident commanders actually find easy to use. We are very impressed at how quickly we can view information with a simple touch of a finger."

"We were pleased to see how easy it was to create and maintain our very complex industrial site plans with PrePlanView™ and then view them immediately."

"Finally, I have a preplan software solution that is easy to use and incorporates our existing data. PrePlanView™ allowed us to computerize our existing preplans for quick access and provide an easy method for keeping them current."

"By implementing PrePlanView™ on our touch screen toughbooks, we reduced response time and put critical information in the hands of our firefighters when they need it."
